I am a Systems Analyst and Full Stack Developer specializing in Backend development, with a strong background in Information Systems Analysis, Criminal Intelligence, and Anti-Drug Operations Security. This experience has enabled me to develop skills in tackling complex problems from various perspectives, proposing effective solutions with a collaborative and strategic approach. My specialization is in Backend development, with in-depth knowledge of technologies such as Node.js, JavaScript, TypeScript, Express, NestJS, TypeORM, Mongoose, MongoDB, PostgreSQL, Docker, HTML, CSS, React, and Next.js. Among my soft skills, honesty, teamwork, and effective communication stand out, which allow me to interact clearly and constructively with teams and stakeholders, fostering a positive and productive collaborative environment.
